

# RECOVERY AT ITS GREENEST

Oil Recovery

Tank Cleaning

Marine Services

What we want our customers to know is simple. **WE THINK GREEN.** We care about the impact our business makes and employ the cutting edge technologies and the human care to make sure our environmental footprint is as limited as possible.

From oilfield and industrial tank cleanup and disposal to marine and barge services, our goal is to minimize the environmental impact and customer liability.

Maker's Oil offers a unique twist to your common tank cleaning and waste oil removal needs. We provide a safe, environmentally friendly, and cost effective service to increase our customers bottom line. Our strength lies with our experience.

## LOCATIONS

Our service area includes Texas, Oklahoma, and Louisiana.

## Oil Recovery

### Count on Us

We've earned our customer's trust by expertly cleaning production tanks, saltwater disposal and frac tanks – all within a 12 to 24-hour response window. Our experienced crew takes safety seriously and are committed to minimizing disruptions to our clients.

### State-of-the-Art

Our technically advanced cleaning and separation facility salvages the maximum amount of reusable oil from waste water, lowering our customers' disposal costs and the impact to the environment.

### Industry Leaders

Maker's Oil is THE leader in the industry when it comes to experience. No other company has more combined years of industry know-how.

## Tank Cleaning

### A Greener Way to Clean

Using steam, a deeper clean can be achieved and much less waste water produced in the process.

### Clean Choice

Our customers choose the method of cleaning they prefer; a no-tank entry to reclaim, recycle and reuse wastewater or a more thorough cleaning with hot or cold-water hydro-blasting.

- > Production Tanks
- > Saltwater Disposal
- > Industrial Tanks
- > Frac Tanks
- > Vacuum Boxes
- > Vacuum Trailers
- > Roll off Boxes
- > Pipelines & Compressor Stations
- > Refineries

## Streamlined Service

With a guaranteed 12 to 24 hour response time, our own fleet of service vehicles and a unique methodology to our cleaning service process, Maker's Oil is able to cut the cleaning time down to more than half that of traditional cleaning services. Saving our customers money on the service and saving them money on the disposal of the product.

## Marine Services

### Location Location Location

Situated on the interior bank in the center of the Port of Corpus Christi, our service dock is ideally positioned for barge and marine traffic. Easy access to groceries, airport and other suppliers, plus availability of potable water and fueling services makes our facility the preferred stop along the channel.

### Gulf Coast Mobile Service

With our Coast Guard Approved mobile cleaning facility, we bring the cleaning to you. Wherever you are along the Gulf Coast, Maker's Oil can handle your marine and barge service needs.

### Service is Second to None

Now offering marine fueling, hot and cold water washing, removal and recycling of industrial oils and safe disposal of waste water, Maker's Oil is THE leader for marine services in the Gulf of Mexico.
